Response to Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures

Applicants submit a Sequence Listing for the above-identified application under 37 CFR 1.821 through 1.825 in response to a Notice to Comply mailed August 13, 2002. The deadline for responding to the notice is October 13, 2002 and thus this response should be deemed to be filed in a timely manner. Pursuant to the duty to submit DNA and amino acid sequence in computer readable form, this affirms that to the best of my knowledge and belief, the sequence listing information recorded in computer readable form is identical to the written sequence listing. Enclosed are the paper and CRF versions of the Sequence Listing and a copy of the Notice to Comply.

Please amend the specification to include the Sequence Listing after the detailed description and before the claims in the above-identified patent application. In accordance with 37 CFR §1.821(a), I hereby state that the sequences contained in this Sequence Listing are supported in the application as filed. The paper copy and the computer readable copy of the amended Sequence Listing contain no new matter.

No additional costs are believed to be due in connection with this amendment. However, should any such fees be due, charge any deficiency or credit any overpayment to our Deposit Account No. 01-2315. If there are any questions about this request, the Examiner is invited to call the undersigned attorney at the number provided.

Respectfully submitted,

David L Bernstein

NOTICE TO COMPLY WITH REQUIREMENTS FOR PATENT APPLICATIONS CONTAINING NUCLEOTIDE SEQUENCE AND/OR AMINO ACID SEQUENCE DISCLOSURES

Applicant is given **TWO MONTHS FROM THE DATE OF THIS NOTICE** within which to file the items indicated below to avoid abandonment. Extensions of time may be obtained under the provisions of 37 CFR 1.136(a).

- The computer readable form that has been filed with this application has been found to be damaged and/or unreadable as indicated on the attached CRF Diskette Problem Report. A substitute computer readable form must be submitted as required by 37 C.F.R. 1.825(d). Applicant must provide a substitute computer readable form (CRF) copy of the "Sequence Listing" and a statement that the content of the sequence listing information recorded in computer readable form is identical to the written (on paper or compact disc) sequence listing and, where applicable, includes no new matter, as required by 37 CFR 1.821(e), 1.821(f), 1.821(g), 1.825(b), or 1.825(d). If applicant desires the sequence listing in the instant application to be identical with that of another application on file in the U.S. Patent and Trademark Office, such request in accordance with 37 CFR 1.821(e) may be submitted in lieu of a new CRF.

For questions regarding compliance to these requirements, please contact:
